From Molokai, by Months	19	41

Metric Conversion:

Honolulu Market Receipts From All Sources, by Origin	20	42
Plane Unloads From All Sources, by Origin	21	45

P R E F A C E

Statistics in this publication include ship, barge and plane unloads of fresh fruits and vegetables from sources outside the State and from outlying islands, as well as wholesalers' truck receipts from the island of Oahu. Direct sales to retailers are not included. Although imports made by the Armed Forces are excluded, quantities sold to commissary stores and to the Armed Forces by local dealers are included. Receipts of fresh fruits and vegetables by wholesalers may include quantities for processing and export.

Two metric tables, introduced in 1977, have also been continued to acquaint users with the metric measurement system and to develop historic tables for future comparisons when the national measurement system is converted to a metric one.

Market News work is made possible through the cooperation of the Hawaii State Department of Agriculture, and the Agricultural Marketing Service, United States Department of Agriculture. The Department of Agriculture gratefully acknowledges the assistance of all those who contributed information. Steamship, barge and air transportation companies furnished the unload data; records of Oahu truck receipts were obtained from wholesalers.
